CAREER OBJECTIVE

Motivated and detail-oriented aspiring Java developer with a strong foundation in Java programming, Spring Frameworks, and MySQL. Proficient in building RESTful APIs and managing databases. I enjoy learning new technologies and growing as a skilled software developer through practical experience.

TECHNICAL SKILLS

- Languages: Java, JavaScript
- Frameworks & Libraries: Spring Boot, Spring MVC, React
- Database: MySQL
- Web: HTML, CSS, Bootstrap, Tailwind

PROJECTS

: SMTP Email Service Application (React, Java Spring Boot, SMTP, REST APIs, Java Mail API):
 - Developed a full-stack email automation system using React and Java Spring Boot.
 - Integrated SMTP for sending secure, authenticated emails from the backend.
 - Built RESTful APIs for email sending, recipient validation, and status logging.
 - Created a responsive React UI for users to input recipient email addresses, subject lines, and messages.

: Employee Management System (Java, Spring Boot, MySQL)
: Smart Contact Manager (Java, Spring Boot, MySQL)

WORK EXPERIENCE
